

21.0 REGULATION OF ODORS

21.1 Objectionable Odors

After the effective date of these regulations, no person shall cause, suffer, or allow any emissions of gases, vapors, or "objectionable" odors beyond the property line from which such emissions occur to be in sufficient quantities and of such characteristics and duration as to be injurious, or tend to be injurious, to human health and welfare, plant or animal life, or to property, or which unreasonably interferes with the enjoyment of life or property.

21.2 Determination of Objectionable Odors

An odor shall be deemed "objectionable" when documented investigation by the Department includes, as a minimum: observations on the odor's nature, intensity, duration, and location, and evidence that the odor causes injury, detriment, nuisance, or annoyance to persons or to the public. An instrument, device, or technique may be used by the Department in the determination of the intensity of an odor and may be used in the enforcement of this regulation.

21.3 Compliance Schedule

When an odor shall have been deemed objectionable, an acceptable proposal shall be submitted to the Director for the control of the objectionable odor. The proposal shall contain an acceptable method and timetable for compliance.
