## MEMORANDUM

To: Captain Cooper

From: Madison Jenkins

Subject: Rumors

Date: 04/03/2020

In the past I was confronted by Officer Justin Hall who asked me if Officer Westley Keck ever put his hands on me due to bruises that I had on my arm. I stated no that he had not and asked where he heard that from and he informed me that Officer Savannah Hickman told him that he had. On Wednesday, March 2<sup>nd</sup>, around 2300 hours, I received a call at the Roger D. Wilson detention facility from a detective regarding Officer Keck and his case. The detective asked me if Officer Keck had ever been physical with me in our past relationship and I stated that he had not. The detective stated that he had heard that he had been physically abusive with me and he also brought up my miscarriage and asked if we had ever gotten into a fight over the situation. Only a few people knew of the situation, Officer Savannah Hickman being one of them. On Friday, March 3<sup>rd</sup>, I was working my post in medical when Nurse Saffles and Officer Ian Knowlton stated that they were also told by Officer Hickman that Officer Keck had "beat the shit out of me". The allegations that Officer Keck ever hurt me are not true, as I have said before to these individuals stated in this memo.
