IN RE: REPORT OF EXECUTIVE DIRECTOR

Ms. Bennett reported on the following items:

- <u>Status of Reed Group Transition</u> Ms. Bennett reported Reed Group has
 taken the test file and have signed off on the first few phases.
- Plan Amendments Ms. Bennett stated that there will be plan amendments to the loan program and there will be a resolution presented in April. Ms. Bennett also addressed classified School's employees credited service for vesting purposes. The consistent practice has been that one full school year is equivalent to one year of credited service. Commissioner Nystrom questioned if that was a change in policy. Ms. Bennett responded that it has always been in practice and also followed by the State retirement plan. Commissioner Brantley motioned that this policy be incorporated in the resolution presented in April. The motion was seconded by Mr. Raiden and was unanimously approved.
- Audit "Internal Process" with an end date of August 31, 2018 The
 retirement office has put the internal process in place to provide appropriate
 checks and balances. Pugh & Co. have requested the staff do a sample audit
 of both the disability plans and UOPP for pre-December 1, 2016 retirees which
 is planned to be completed before August 31, 2018.
- Retiree Luncheon The retiree luncheon will be held on April 10th at Rothchild's.

IN RE: REPORT OF INVESTMENT COMMITTEE

- Monthly Rates of Return Commissioner Brantley presented the rates of return for the Defined Contribution Plans as of February 28, 2018.
- Report of the Special Called Investment Committee Meeting of March 21, 2018 –
 Commissioner Brantley gave a recap of the special investment meeting from March 21, 2018, and encouraged committee members to speak as well.
- Discussion of Assumed Rate of Return on UOPP Commissioner Brantley stated that USI Consulting will be presenting the assumed rate of return for UOPP. Mr. Cross presented a report (attachment) to show the current investment policy allocation of UOPP. Commissioner Schoonmaker made a motion to increase the valuation assumed rate of return for UOPP from 7% to 7.25%. The motion was seconded by Mr. Webb and approved unanimously. Commissioner Thomas asked about the potential investment loss the portfolio may experience if equity markets were to decline. Mr. Davies discussed potential projections (attachment), and stated that this estimate was for any given year based on a 95% confidence interval. Mr. Cross stated this adjusted rate of return was recommended due to the longer life span of the UOPP plan.

IN RE: REPORT OF LEGAL COUNSEL

Mr. Owings had no report.

Mr. Burks reported that a responsive pleading had been filed in the Chancery Court and also said that we were entering into a stay in the Gass matter in Chancery Court.

Mr. Mason stated for the record that the Law Director filed a voluntary nonsuit, dismissing the lawsuit filed against him and his firm, Kennerly Montgomery.

IN RE: REPORT OF ACTUARY

Mr. Cross presented the mutual funds letter from State Street (attachment). Ms. Bennett addressed the transfer of money managers to the new investment mix USI recommended. Two of the funds, Allianz Structured Return and Transamerica Short Term Bond were reported to not be setup on State Street's investment platform at this time and are still held in cash. One investment fund is now approved by State Street and the other does not yet have a date in which it will be ready to be invested. Ms. Bennett will update the Board as she receives any information on the matter. Mr. Davies stated that the paperwork for the funds was sent to State Street on February 27th and on March 16th, USI was informed that two of the funds were not set up by State Street. Mr. Cross stated that it would be reasonable that the fund be reimbursed for any loss by State Street. Mr. Webb asked if there was a possibility of picking another fund. Mr. Cross responded that the Board could, but these funds are well recognized mutual funds and it is unusual that these funds are not on State Street's platform. Mr. Davies stated that State Street gave USI an initial timeline of correction of two weeks and the deadline will be the end of the week. Commissioner Thomas asked for exact numbers for the amount not in investments. Mr. Bronkhorst stated that the total was \$30 million; \$16 million in UOPP and \$14 million in Closed DB/Teachers.

Re: Knox County Retirement Mutual Fund Trades

Dear Ms. Bennett,

Thank you for reaching out to me to discuss the mutual fund investments that we are pending for your funds RBUF, RBUG and RBUH. Despite communication to the contrary prior to the trade date, tickers AZIRX and TASTX were unavailable to trade on our platform when the trade tickets were received. We are urgently and diligently working with senior levels of management in the trading area to have these tickers added so that we can place the trades as requested.

When we received the list of 20 tickers requested, we reached out to our trading area to confirm that we were able to trade them. Six were unavailable at that time. I have identified that in the internal email communication this list of unavailable tickers was split into a group of two and a group of four. The group of four was sent to our compliance group and then added to the platform. The other two were not sent to compliance and subsequently not added to the trading platform.

I am researching this with a peer in the trading area to better understand how this occurred. As per our standard protocol, there was communication via email and phone between the client service team and the trading area while this was being set up. We are also reviewing the current process and identifying mechanisms to put in place to prevent recurrence of this situation.

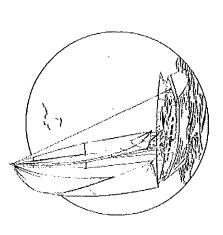

On behalf of State Street I sincerely apologize for the frustration and loss of time that this situation has caused for you, your consultant and your board. If I can be of further assistance please feel free to reach out at 816-871-3596 or by e-mail at LJAtkins@statestreet.com.

Sincerely.
